Overall comments on candidates' responses

The candidates wrote some excellent answers and had clearly revised. They wanted to show their knowledge and unfortunately there was not enough room on the paper for them to complete their answers. This resulted in work being squashed onto the available lines, making work look untidy and difficult to mark. Apologies to the candidates for this and it will be resolved for the next examination series.

Overall comments on the question paper

It was fair and covered the syllabus. There must be more room for candidates to write in future papers.
