To Whom It May Concern

Qualifications in Construction

Bridgwater College is located in the heart of Somerset, with main centres in Bridgwater and Cannington. The College has an excellent reputation both regionally and nationally as a highly successful provider of education and training. Bridgwater College has purpose-built construction training centres at the main site, in Wylds Road, Bridgwater and in Cannington.

As a leading provider of skills and training for the Construction Sector, we can confirm that we use the following qualifications provide opportunities for learners to the gain skills and knowledge required to progress into further learning in Construction trades. They also provide entry into work for some of our learners.

Wall and Floor Tiling

HM Government estimates there are as many as 30,000 wall and floor tilers in the UK. Due to the intermittent nature of work in construction, this workforce needs constant supply of new skills. To enable this, we fully support the following qualifications being included for funding:

- 60087869 Level 1 Diploma in Wall and Floor Tiling
- 60087857 Level 2 Diploma in Wall and Floor Tiling

These qualifications provide the skills and knowledge to gain an understanding of the Construction industry and provide a progression route through learning to become a specialist tradesman working in wall and floor tiling.

In order to prove competency, learners may also progress on to the following NVQ qualifications:

- 60078522 Level 2 NVQ Certificate in Wall and Floor Tiling (Construction)

Many learners also progress to higher level qualifications in site supervision and management, and a significant number also found the small and micro businesses that dominate employment in the construction industry.

We can confirm that we consent to our company name and logo being made publicly available on the City & Guilds website.

Yours faithfully
