PROGRESSION INTO PROFESSIONAL REGISTRATION

The City & Guilds Graduate and Postgraduate Diplomas in Engineering have been developed to provide a flexible route to career success as a professional engineer.

City & Guilds is working with the UK's leading professional institutions to ensure that the qualifications are aligned with the requirements for Incorporated Engineer (Graduate Diploma) and Chartered Engineer (Postgraduate Diploma) registration.

INSTITUTION OF ENGINEERING AND TECHNOLOGY (IET)

The Institution of Engineering and Technology (IET) welcomes applications from holders of the following City & Guilds qualifications:

- City & Guilds Graduate Diplomas for Incorporated Engineer (IEng) registration:
 - Graduate Diploma in Electrical Engineering
 - Graduate Diploma in Electronic and Telecommunication Engineering
 - Graduate Diploma in Information Technology.
- City & Guilds Postgraduate Diplomas for Chartered Engineer (CEng) registration:
 - Postgraduate Diploma in Electrical Engineering
 - Postgraduate Diploma in Electronic and Telecommunication Engineering
 - Postgraduate Diploma in Information Technology.

IET and City & Guilds are working together to ensure the qualifications are aligned with the registration requirements for Incorporated Engineer (for the Graduate Diploma) and Chartered Engineer (for the Postgraduate Diploma). Candidates with these qualifications will be considered individually under the IET's Peer Review process.

INSTITUTION OF MECHANICAL ENGINEERING (IMechE)

The Institution of Mechanical Engineers (IMechE) welcomes applications from holders of the following City & Guilds qualifications:

- City & Guilds Graduate Diploma in Mechanical Engineering for Incorporated Engineer (IEng) registration
- City & Guilds Postgraduate Diploma in Mechanical Engineering for Chartered Engineer (CEng) registration.

IMechE and City & Guilds are working together to ensure the qualifications are aligned with the registration requirements for Incorporated Engineer (for the Graduate Diploma) and Chartered Engineer (for the Postgraduate Diploma), which will be considered individually by the Institution's Academic Assessment Committee.

INSTITUTION OF CIVIL ENGINEERING (ICE)

The Institution of Civil Engineers (ICE) welcomes applications from holders of the following City & Guilds qualifications:

- City & Guilds Graduate Diploma in Civil Engineering for Incorporated Engineer (IEng) registration
- City & Guilds Postgraduate Diploma in Civil Engineering for Chartered Engineer (CEng) registration.

ICE and City & Guilds are working together to ensure the qualifications are aligned with the registration requirements for Incorporated Engineer (for the Graduate Diploma) and Chartered Engineer (for the Postgraduate Diploma), which will be considered individually by the Institution's Academic Qualifications Panel.

Founded 140 years ago, the IET is one of the world's leading professional societies for the engineering and technology community. The IET has more than 150,000 members in 127 countries, with active networks of members in 37 countries. To support its worldwide membership it has offices in Europe, North America and Asia Pacific.

IET's activities include membership and professional development, professional registration under licence from the Engineering Council, publishing and events as well as government and stakeholder engagement on engineering related policy issues. IET also produces independent authoritative fact files and briefings on key topics.

www.theiet.org

The Institution of Mechanical Engineers (IMechE) is the fastest growing professional engineering institution in the UK. IMechE has been at the heart of the world's most important and dynamic industries since its formation in 1847.

Today, the Institution has over 100,000 members and is a market leader among professional engineering bodies. It represents mechanical engineers in over 120 countries and the Institution is the largest network of mechanical engineering knowledge, skill and opportunity in the world.

IMechE is committed to ensuring that the views of engineers are well represented in the public domain and is an internationally recognised thought leader in the areas of energy, climate change and future transport.

The Institution of Civil Engineers (ICE) was founded in 1818 and is dedicated to foster and promote the art and science of civil engineering.

Today, the Institution represents nearly 80,000 members worldwide. ICE is a qualifying body, a centre for the exchange of specialist knowledge in civil engineering, and a provider of resources to encourage innovation and excellence in the profession worldwide.

www.ice.org.uk

The register of Chartered Engineers (CEng) and Incorporated Engineers (IEng) is held by the Engineering Council, the UK regulatory body for the engineering profession. The Engineering Council sets and maintains the internationally recognised standards of professional competence and ethics that govern the award and retention of these titles.

To become professionally qualified, candidates must be a member of a licensed professional engineering institution, who will act as the awarding body for their registration. IET, IMechE and ICE are the three largest licensed professional engineering institutions in the UK, allowed to assess candidates for inclusion on their register of professional engineers.
