Institute of Environmental  
Management & Assessment

A man and a woman are looking at a document together in what appears to be a library or office setting. The man is on the left, wearing a light-colored striped shirt, and the woman is on the right, wearing a black top with a white ruffled collar. They are both looking down at the document on the table. The background shows bookshelves filled with books.

LEVEL 4 IEMA MANAGING WITH  
ENVIRONMENTAL SUSTAINABILITY**

**QUALIFICATION FACTSHEET**

# LEVEL 2 & 4 QUALIFICATIONS IN ENVIRONMENTAL SUSTAINABILITY

QCF Qualification	Qualification levels and definition	Progression routes
<p>The Level 2 qualification is perfect for those working in any job role across all sectors, to ensure that environmental sustainability is embedded into all job roles of a company.</p> <p>It is useful for individuals promoting or installing renewable technologies as it will provide underpinning knowledge of environmental sustainability.</p> <p>The Level 4 aims to provide supervisors and managers with a strategic and operational overview of environmental sustainability as it affects their specific industry and work area.</p>	<p>At each level, these qualifications allow individuals to contribute to the improved environmental sustainability of their organisation. The appropriate level of environmental knowledge is an enabler to do a job in a more environmentally sustainable way in order to drive real business benefits.</p> <p>These short qualifications are perfect to add on to existing courses, to provide learners with a broad understanding of environmental sustainability.</p>	<p>Learners can progress from Level 2 to Level 4 in Environmental Sustainability.</p> <p>There are a number of Higher Level qualifications offered through the Institute of Leadership and Management (ILM), <a href="http://www.i-l-m.com">www.i-l-m.com</a>. Learners may be interested in the IEMA Foundation Certificate in Environmental Management, <a href="http://www.iema.net">www.iema.net</a>.</p> <p>Learners may also wish to join IEMA as an Affiliate to keep ahead on the environmental agenda or get recognition for current management skills and experience as a professional member of ILM.</p>

QCF Qualification	GLH	City & Guilds number
Level 2 IEMA Working with Environmental Sustainability	7	0271-01
Level 4 IEMA Managing with Environmental Sustainability	14	0271-02

	Key Features	Key Benefits
<b>Structure</b>	<p>The Level 2 has 7 Guided Learning Hours and covers the main environmental risks and opportunities facing organisations, the importance of resource efficiency, the impacts of pollution, prevention, control and legislation, the impact of transport and knowing how employees support environmental sustainability.</p> <p>The Level 4 has 14 Guided Learning Hours and covers understanding the strategic opportunities and constraints that environmental sustainability presents organisations, the benefits of resource efficiency, the impact of environmental sustainability across the value chain, and organisational approaches to environmental management.</p>	<p>Designed by City &amp; Guilds, the leading Awarding Organisation in vocational education, in conjunction with IEMA, the largest environmental professional membership body, which has more than 15,000 members. Both organisations recognise the requirement for a more sustainable economy and the need for the development of appropriate skills and knowledge at all levels.</p> <p>These qualifications and associated training packages have been developed and tested in collaboration with industry, including organisations in the construction, retail, aerospace, logistics, communications &amp; energy sectors.</p>
<b>Assessment</b>	<p>The L2 training and assessment could be completed in 1 day. The assessment includes a paper based multiple choice test.</p> <p>The L4 training and short answer test could be completed in 2 days. To complete the qualification a work-based report must also be submitted.</p>	<p>The assessments are produced by City &amp; Guilds in collaboration with Industry experts. The tests are provided by City &amp; Guilds and marked by the centre.</p>
<b>Support</b>	<p>Our extensive pool of support resources includes a learner manual, qualification handbook and tutor training packs. The training packs include lesson plans, activities, power points &amp; IEMA approved case studies.</p>	<p>The learner manuals can be used to boost learner success rates, whilst the training resources can be used to standardise the training and increase efficiency of the delivery. Learner manuals are dispatched free of charge upon registration, or are available in digital format from <a href="http://www.cityandguilds.com">www.cityandguilds.com</a>.</p> <p>A free training pack is available for each centre.</p>

## Reasons to choose City & Guilds and the Institute of Environmental Management and Assessment (IEMA)

<b>Industry recognition</b>	At the interface between the environment and business, IEMA has worked with City & Guilds to develop the learning outcomes and assessment criteria to ensure they meet the needs of business and organisations. The strength of the partnership with City & Guilds and IEMA means that the qualifications are trusted and valued by employers.
<b>Experience and expertise</b>	City & Guilds has over 125 years experience of designing and producing qualifications and assessment materials. IEMA is the leading professional body and principal environmental organisation for anyone working with an environmental responsibility.
<b>Market leader</b>	City & Guilds is the market leader in vocational education and in partnership with IEMA recognises the need for knowledge and learner progression.
