Qualification aim	Qualification levels and definition	Progression routes
The 'Gold standard' by which all other qualifications in the market place are measured against. This qualification is designed to provide new entrants wishing to become electricians and those seeking progression in their career, with the opportunity to develop the necessary skills and knowledge to carry out job roles and responsibilities associated with the installation and maintenance of Electrotechnical systems.	This qualification is available at Level 3 only, which is the level that the Electrotechnical industry recognises learners as having achieved the competence required to carry out the role. This qualification also forms part of the Electrotechnical Apprenticeship framework.	On completion learners will gain the skills and knowledge required to progress to: CPD qualifications within the Electrotech portfolio such as 2394,2395, 2396 and 2399. In addition, we also have a number of Higher Level qualifications offered through the Institute of Leadership and Management (ILM). www.i-l-m.com

	Key features	Key benefits
Structure	Learners must complete all 17 mandatory units within 2357-13. And all 18 mandatory units within 2357-23. The units are a mixture of knowledge and performance.	By completing the mandatory units and the associated assessments, learners will have the skills and knowledge to carry out safe and successful electrical installation and maintenance.
Assessment	The knowledge units are assessed via e-assessment platform e-evolve, short answer questions and a small number of practical assignments. The performance units are assessed in the work place via a portfolio of evidence.	e-evolve is designed to cut the time spent marking and reduces your paperwork. The on-demand assessment is flexible and improves success rates as candidates only complete when they are ready. Learners will also have gained the benefit of understanding and applying subjects such as principles, regulations and inspection and testing through short answer questions, a key ingredient for future employment.
Support	Our support resources include: a free Qualification Handbook, online tutor and learner support via SmartScreen, our e-portfolio Learning Assistant, personal support, as well as new exam success and text books.	SmartScreen helps tutors save time planning and supports learners in order to drive greater quality and better success rates. Learning Assistant helps save time and money by increasing learner completion rates by up to 40% over paper delivery. Personal support is available from the largest team of subject specific Quality Consultants, Qualification advisors, Customer relations Team and dedicated Business Managers.

Reasons to choose City & Guilds	
Widest range and choice of qualifications	City & Guilds is the market-leading awarding organisation for qualifications in Building Services Engineering, Learners can progress to a wide range of other Electrotechnical and Building Services qualifications.
Industry expertise	We have consulted and worked with training providers, colleges and leading industry associations to ensure that our qualifications provide relevant, work-ready training.
Recognised by employers	Our qualifications are trusted and valued both by experts and employers across the Electrotechnical industry which will help you to engage with employers and provide learners with the skills and training that will allow them to succeed in employment.
