1 Introduction to the qualification

This document contains the information that centres need to offer the following qualification:

Qualification title and level	Level 2 Certificate for the Children & Young People's Workforce
City & Guilds qualification number	(4227-01)
Qualification accreditation number	500/9457/9
Last registration date	31/12/2016
Last certification date	31/12/2018

This qualification meets the needs of candidates who work or want to work in a wide range of children and young people's settings covering the age range 0-19 years for example in the roles of:

- Care Worker
- Childminder
- Nursery Nurse
- Youth and Community Worker

This qualification replaces the City & Guilds Level 2 NVQ and Certificate in Children's Care, Learning and Development (3171/3177).

Aim and purpose of the qualification

The Level 2 Certificate is a generic qualification that will be relevant across the Children and Young People's Workforce. It is mapped to the CWDC Induction Standards and the CCLD National Occupational Standards and its main purpose will be to act as a bridging qualification towards the Level 3 Children and Young People's Workforce Diploma. The qualification will also provide an inclusive pathway for entrants to the workforce across the Children's workforce. It will confer occupational competence to work under supervision and enable practitioners to count in the ratio at level 2 identified in the Statutory Framework for the Early Years Foundation Stage. This qualification will form part of the apprenticeship.

This qualification has been designed to:

- provide a broad understanding of the children and young people's workforce sector and an introduction to the practical skills and knowledge required
- provide an awareness of the range of jobs and work settings in the children and young people's sector
- enable learners to make an informed assessment of their own aptitude for work in this sector and to make informed decisions about careers
- encourage learners to reach a level of knowledge and skills that will facilitate progress into further vocational learning or to potential employment in the sector
- introduce learners to the discipline of the working environment and to encourage mature attitudes to the community in general
- encourage learners to value continued learning and remain in the learning process
- allow learners to learn, develop and practise selected skills required for progression in the sector
- provide opportunities for progression to the Level 3 Diploma and other related qualifications in the sector.

Key purpose and principles and values of the sector

The key purpose for those working in children's care learning and development has been identified by the SSBs to be:

'To provide, in partnership with communities and other agencies, a firm foundation for growth, learning and development for children and young people and their families. This includes creating, developing and maintaining environments and services that enable children to have the best possible experience of childhood and to enable them and their families to make the most of opportunities to achieve their full potential.'

Implicit in this statement is the core assumption that the human rights of these people will be safeguarded at all times.

The following principles and values underpin the complete set of standards in their entirety.

Principles

- The welfare of the child is paramount
- Practitioners contribute to children's care, learning and development and this is reflected in every aspect of practice and service provision
- Practitioners work with parents and families who are partners in the care, learning and development of their children and are the child's first and most enduring educators.

Values

- The needs, rights and views of the child are at the centre of all practice and provision
- Individuality, difference and diversity are valued and celebrated
- Equality of opportunity and anti-discriminatory practice are actively promoted
- Children's health and well-being are actively promoted
- Children's personal and physical safety is safeguarded, whilst allowing for risk and challenge as appropriate to the capabilities of the child
- Self-esteem, resilience and a positive self-image are recognised as essential to every child's development
- Confidentiality and agreements about confidential information are respected as appropriate unless a child's protection and well-being are at stake
- Professional knowledge, skills and values are shared appropriately in order to enrich the experience of children more widely
- Best practice requires reflection and a continuous search for improvement.

In order to be assessed as competent candidates must demonstrate that they work within the context of the principles and values of the sector. Assessors will be expected to confirm this by signing the declaration form, Unit assessment and verification declaration.

1.1 Qualification structure

To achieve the Level 2 Certificate for the Children & Young People's Workforce, learners must achieve **35** credits overall, **29** credits from the mandatory units and a minimum of **6** credits from the optional units available.

2 Centre requirements

This section outlines the approval processes for centres to offer this qualification and any resources that centres will need in place to offer the qualifications including qualification-specific requirements for centre staff.

2.1 Centre approval

Centres new to City & Guilds

To offer these qualifications, new centres will need to gain both centre and qualification approval. Please refer to **Appendix 2** for further information.

Centres already offering City & Guilds qualifications in this subject area

Centres approved to offer the qualification, Level 2 NVQ and the Certificate in Children's Care, Learning and Development, will receive automatic approval for the new Level 2 Certificate for the Children & Young People's Workforce (4227-01)

Existing City & Guilds centres

Those City & Guilds centres already approved to deliver City & Guilds qualifications will need to go through qualification approval. Please refer to **Appendix 2** for further information.

Human resources

To meet the quality assurance criteria for these qualifications, the centre must ensure that the following internal roles are undertaken:

- Quality Assurance Coordinator
- Trainer/Tutor
- Assessor (occupationally competent and occupationally knowledgeable)
- Internal Verifier

Please note that centre staff are not expected to have had experience of working across the entire 0 – 19 years age range but are expected to update their knowledge through continuing professional development.

Centre staff may undertake more than one role, eg tutor and assessor or Internal Verifier, but must never internally verify their own assessments.

Continuing professional development

Centres are expected to support their staff in ensuring that their knowledge remains current of the occupational area and of best practice in delivery, mentoring, training, assessment and verification, and that it takes account of any national or legislative developments.

Role requirements

Assessor requirements

The Assessors of competence based units must:

- Be occupationally competent - this means that each assessor must be able to carry out the full requirements within the competency units that they are assessing. Occupational competence means that they are also occupationally knowledgeable.
- Maintain their occupational competence through clearly demonstrable continuing learning and professional development.
- Hold or be working towards one of the following qualifications:
 - D32//D33 or A1
 - The AI replacements (e.g. City & Guilds 6317 which includes the Level 3 Award in Assessing Competence in the Work Environment or the Level 3 Certificate in Assessing Vocational Achievement)
 - Another suitable qualification equivalent/alternative in the assessment of work based performance. This must be agreed in advance with the External Verifier

Assessors of competence based units may also make assessment decisions on knowledge based unit and learning outcomes.

Assessors of knowledge based units and knowledge based Learning Outcomes must:

- Be occupationally knowledgeable. This means that each assessor should possess relevant knowledge and understanding to assess units designed to test specific knowledge and understanding or units where knowledge and understanding are components of competency.
- Maintain their occupational knowledge through clearly demonstrable continuing learning and professional development.
- Hold or be working towards one of the A1 replacement qualifications such as the City & Guilds 6317:
 - Level 3 Award in Assessing Vocational Competence OR
 - Level 3 Award in Assessing Vocationally Related Achievement OR
 - Level 3 Certificate in Assessing Vocational Achievement OR
 - Another suitable qualification in the assessment of knowledge. This must be agreed in advance with the External Verifier

Teachers, trainers and tutors

All teachers/trainers/tutors must:

- comply with the ITT Regulations 2007 (QTLS/ATLS) where they are delivering qualifications in England using public funding . For further information visit www.cityandguilds.com/qtls
- have occupational expertise relevant to the units they are teaching
- be occupationally knowledgeable in the areas for which they are teaching/delivering training
- have experience of providing training and assessment or be in the process of acquiring this experience.

Expert witness

An expert witness must:

- have a working knowledge of the QCF units on which their expertise is based
- be occupationally competent in their area of expertise
- have EITHER any qualification in assessment of workplace performance OR
- a professional work role which involves evaluating the every day practice of staff.

Internal verifiers/Internal quality assurance

Internal quality assurance is key to ensuring that the assessment of evidence for units is of consistent and appropriate quality. Those carrying out internal quality assurance role must be

occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions.

2.2 Candidate entry requirements

There are no formal entry requirements for candidates undertaking this Certificate. However, centres must ensure that candidates have the potential and opportunity to gain evidence for the qualification in the work place.

Candidates should not be entered for a qualification of the same type, content and level as that of a qualification they already hold.

Candidates should choose optional units that are appropriate to their chosen work role.

Age restrictions

This Level 2 Certificate is not approved for the use of those who are under 16 years of age, and City & Guilds cannot accept any registrations for candidates in this age group. There may also be age restrictions placed on individuals when undertaking certain work activities within the childcare sector. These too should be clarified with the appropriate regulator in their home nation where there is uncertainty about such restrictions.

2.3 Assessment decisions

Assessment decisions for criteria that must be assessed in the workplace, as identified in unit assessment requirements, must be made in a real work environment by an occupationally competent assessor.

Assessment decisions for criteria that must be assessed in the workplace (competence based assessment criteria) must be made by an assessor with the expertise to make assessment decisions.

Competence based assessment must include direct observation as the main source of evidence.

Simulation may only be utilised as an assessment method for competence based assessment criteria where this is specified in the assessment requirements of the unit.

Expert witnesses can be used for direct observation where:

- they have occupational expertise for specialist areas, or
- the observation is of a particularly sensitive nature.
- have **either** any qualification that includes assessment of workplace performance **and/or** a professional work role which involves evaluating the everyday practice of staff

The use of expert witnesses should be determined and agreed by the assessor. Assessment of criteria not identified in the unit assessment requirements as requiring assessment in the workplace may take place in or outside of a real work environment.

3 Course design and delivery

3.1 Initial assessment and induction

Centres will need to make an initial assessment of each candidate prior to the start of their programme to ensure they are entered for an appropriate type and level of qualification.

The initial assessment should identify:

- any specific training needs the candidate has, and the support and guidance they may require when working towards their qualification. This is sometimes referred to as diagnostic testing.
- any units the candidate has already completed, or credit they have accumulated which is relevant to the qualification they are about to begin.

City & Guilds recommends that centres provide an induction programme to ensure the candidate fully understands the requirements of the qualification they will work towards, their responsibilities as a candidate, and the responsibilities of the centre. It may be helpful to record the information on a learning contract.

3.2 Recommended delivery strategies

Centre staff should familiarise themselves with the structure, content and assessment requirements of the qualifications before designing a course programme.

Centres may design course programmes of study in any way which:

- best meets the needs and capabilities of their candidates
- satisfies the requirements of the qualifications.

In particular, staff should consider the skills and knowledge related to the national occupational standards. The relationships to the relevant NOS can be found in each unit.

When designing and delivering the course programme, centres might wish to incorporate other teaching and learning that is not assessed as part of the qualification. This might include the following:

- literacy, language and/or numeracy
- personal learning and thinking
- personal and social development
- employability

City & Guilds recommends that, where appropriate, when designing and delivering the course centres should also consider links to the National Occupational Standards, functional skills and other related qualifications.

3.3 Data protection, confidentiality and legal documents

Data protection and confidentiality

Data protection and confidentiality must not be overlooked when planning the delivery of this qualification.

Centres offering these qualifications may need to provide City & Guilds with personal data for staff and candidates. Guidance on data protection and the obligations of City & Guilds and centres are explained in Providing City & Guilds qualifications.

Confidential records used as evidence

Candidates may quite appropriately cite confidential records as evidence in their qualification as long as the parent, or their advocate, has given written and informed consent for records to be used for this purpose.

Confidential records should never be included in candidates' portfolio of evidence and should be examined in-situ by the qualified occupationally competent assessor. Assessors/candidates should describe and record what evidence such documents should provide and where the evidence is located.

External Verifiers may wish to discuss such evidence with the centre as part of the verification process, but would not normally require sight of confidential records.

However, in the unlikely event that the EV should have concerns about the quality of such evidence, they will, after discussion and agreement with their lead verifier, acquaint the centre management with their concerns, and seek consent to access such records from the organisation which has responsibility for the safe keeping of the particular confidential records in question.

Images of minors being used as evidence

If videos or photographs of minors (those under 18) are used as the medium to present evidence as part of the qualifications the approved centre and the candidates have responsibilities in terms of meeting child protection legislation.

It is the responsibility of the approved centre to inform the candidate of the following:

- The need for the candidate to obtain permission from the minor's parent/guardian prior to collecting the evidence
- The purpose of the use of photographs or video recordings
- The period of time for which the photographs or video recordings are to be kept
- Their obligation to keep photographs or video recordings secure from unauthorised access
- Their obligations relating to storage of the photographs or video recordings which are kept electronically, and the associated security of using electronic systems
- Associated child protection legislation

4 Assessment

4.1 Summary of assessment methods

This competence-based qualification is designed to be assessed in the candidate's workplace as they undertake their normal work role.

The evidence must at all times reflect the policies and procedures of the workplace as informed by current legislation, the relevant service standards and codes of practice for the sector.

The majority of assessment for this competence-based qualification will take place in the workplace under real work conditions, using observations by a qualified assessor and/or testimony from an expert witness, work products etc. All the identified assessment criteria must be evidenced and a holistic approach to assessment is encouraged.

Guidance on providing evidence for the extended age ranges

This diploma applies to learners who are working with children and young people from 0-19 years. It is important to note that the requirement for the extended age range focuses on **knowledge** not competence. Learners need to have **knowledge and understanding** of children's development 0-19 years but are only expected to demonstrate competence for the age range for which they normally work.

Centre staff are not expected to have experience of working across this entire age range but **are** expected to up date their knowledge through continuing professional development.

Competence based units

There will be a combination of assessment methods for this qualification which meets competence units. Direct observation of candidate's performance by a qualified occupationally competent assessor and the assessor's judgement on testimony from an Expert Witness Testimony are the **main methods of assessment and main source of evidence**. The evidence must at all times reflect the policies and procedures of the workplace as informed by current legislation, the relevant service standards and codes of practice for the sector.

Knowledge based units

Learners may choose to undertake the knowledge one of two ways,

- portfolio of evidence, using diverse range of assessment methods
- Externally set and internally verified assignments

The evidence must at all times reflect the policies and procedures of the workplace as informed by current legislation, the relevant service standards and codes of practice for the sector.

This qualification is internally assessed and externally verified. Independence of assessment is achieved via robust external and internal verification processes, supported by City & Guilds reporting systems, which identifies areas of risk for each centre.

4.2 Observation requirements

The prime source of evidence for competency based learning outcomes within this qualification is assessor observation. Where assessor observation would be difficult because of intrusion into areas of privacy and/or because activities occur rarely, expert witnesses may provide testimony for the occupationally specific units.

Additional assessment methods or evidence sources

In addition to observation, assessors should identify an appropriate mix of other assessment methods from the list below, to ensure that all the assessment criteria are sufficiently evidenced to allow them to make the consistency of the candidate's practice for each unit.

- **Expert witnesses** may observe candidate practice and provide testimony for competence based units which will have parity with assessor observation for all competence based units across the qualification. If an assessor is unable to observe their candidate she/he will identify an expert witness in the workplace, who will provide testimony of the candidates work based performance.
- **Work products** can be any relevant products of candidates' own work, or to which they have made a significant contribution, which demonstrate use and application within their practice.
- **Professional discussion** should be in the form of a planned and structured review of candidates' practice, based on evidence and with outcomes captured by means of audio/visual or written records. The recorded outcomes are particularly useful as evidence that candidates can evaluate their knowledge and practice across the qualification.
- **Candidate/ reflective accounts** describe candidates' actions in particular situations and/or reflect on the reasons for practising in the ways selected. Reflective accounts also provide evidence that candidates' can evaluate their knowledge and practice across the activities embedded in this qualification.
- **Questions** asked by assessors and answered by candidates to supplement evidence generated by observations and any other evidence type used. Assessors may be able to infer some knowledge and understanding from observing candidate practice. They may ask questions to confirm understanding and/or cover any outstanding areas. Questions may be asked orally or in writing but, in both cases, a record must be kept of the questions and responses.
- **Witness testimonies.** These should be from people who are in a position to provide evidence of candidate competence. Where testimony is sought from individuals who are service users, care should be taken to ensure the purpose of the testimony is understood and no pressure is felt to provide it.
- **Projects/Assignments.** Candidates may have already completed a relevant project or assignment which can be mapped to the relevant standards and therefore provide evidence. Evidence from previous training courses and/or learning programmes which they have completed and which demonstrate their professional development may also be used
- **Case studies** must be based on real work practice and experiences and will need to be authenticated by an assessor if used as evidence of a competent performance. Theoretical or simulated exercises would only be admissible as evidence of knowledge and understanding.

NB Confidential records must not to be included in candidates' portfolios but must be referred to in the assessment records.

4.3 Assignments

Assignments may be found in the City & Guilds assignment guides (Assignment Guide for Centres and Centre Guide for Candidates), which are accessible as a free download from www.cityandguilds.com. These are **suggested** assessments only and centres may decide that some candidates do not have the necessary skills to carry out an assignment. In these cases, a portfolio of evidence may be submitted.

- Centre staff should guide candidates to ensure excessive evidence gathering is avoided.
- All assignments must be completed and assessed within the candidate's period of registration. Centres should advise candidates of any internal timescales for the completion and marking of individual assignments.

4.4 Evidence requirements

Competence evidence requirements

Detailed additional guidance is provided on a unit basis for the use of these and all other acceptable performance assessment methods. Notes on assessment methods, evidence requirements and sources of evidence are also provided on pages 17 – 18 of this handbook.

The structure of this qualification makes it unlikely that any one assessor will have the necessary vocational competence to be able to assess every unit. Therefore the use of experts, able to contribute to candidate's assessment, will be of considerable assistance to centres in providing candidates with access to those who can testify to their competence in the workplace. It may also ensure that children's/young people's privacy and confidentiality are not infringed.

Evidence of candidate performance will be derived from assessor observation and/or testimony from an expert witness of the candidate carrying out real work activities in the workplace, except for the knowledge units, where assessor observation is not required.

The qualified and occupationally competent assessor or coordinating assessor will decide on the appropriateness of all evidence including expert witness testimony and on whether or not it should be included in candidates' portfolios.

Regardless of the evidence source, assessment method and means of recording, the legal requirements and best practice in relation to maintaining the confidentiality and rights to dignity and privacy of children, young people and their families must be upheld.

Knowledge evidence requirements

If the assessor cannot positively infer the knowledge and understanding from candidates' work practice they should question the candidate or, if appropriate, use professional discussion to elicit the required knowledge. Assessors must retain records of questions and answers or the focus and outcomes of professional discussion.

Professional discussion, where used, must be conducted by candidates' qualified occupationally knowledgeable assessors and is most appropriately used in the qualification to elicit underpinning knowledge to explain how to deal with contingencies and clarify or expand on evidence presented in portfolios. Professional discussion must be included in candidates' assessment plans and thereby agreed in advance with candidates. The assessor should not use professional discussion merely to ask a set of prescribed knowledge questions.

4.5 Recording forms

City & Guilds has developed these recording forms, for new and existing centres to use as appropriate and can be copied as many times as needed. Although it is expected that new centres will use these forms, centres may devise or customise alternative forms, which must be approved for use by the external verifier, before they are used by candidates and assessors at the centre. Alternatively, City & Guilds endorses a number of electronic recording systems. For details, go to the e-Portfolios page on SmartScreen.co.uk.

4.6 Recognition of prior learning (RPL)

Recognition of Prior Learning (RPL) is a process of using an individual's previous achievements to demonstrate competence within QCF. This is not a new process but expands on previously described terms like "the accreditation of prior learning (APL), the recognition of experiential learning or "the validation of informal learning" by incorporating all types of prior learning and training. The Regulatory arrangements for the Qualifications and Credit Framework define RPL as follows:

A method of assessment that considers whether a learner can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and do not need to develop through a course of learning. In the context of the QCF, the definition of RPL is quite specific and relates to assessment leading to the award of credit. Assessment for RPL is conducted against the learning outcomes and assessment criteria of a unit and is subject to exactly the same quality assurance requirements as any other kind of assessment within the QCF.

'RPL is the process of documenting, assessing, validating and certificating learning gained outside the formal education and training system'.

The RPL process is relevant where an individual has previously learnt something but has never received formal recognition for this learning through a qualification or other form of certification. Within the QCF an individual is able to 'claim' that he or she knows or can do something already and does not need to attend a course to learn it again. If he or she can prove this claim (through assessment of relevant evidence), then credit can be awarded for that achievement in the same way as any other credits. RPL refers to an opportunity for candidates to present competence or knowledge evidence which comes from a period prior to their registration for a particular qualification. The evidence presented e.g. certificates, witness testimonies etc, will need to provide sufficient detail to allow the assessor to apply an RPL assessment process.

An example of RPL might be:

A Learner has worked as a child minder for the last five years. They would like to achieve a Level 3 Diploma for Children and Young People's Workforce and a unit has been recognised for RPL:

Unit 079: Understand how to set up a Home Based Childcare service

Assessment staff work through Learning Outcomes and assessment criteria ensuring that all are covered, using relevant methods for RPL such as: Witness Testimony, Reflective Accounts, Professional Discussion, etc.

Unit is assessed using RPL (all learning will have been gained prior to registering for qualification)

Appendix 1 Relationships to other qualifications

Links to other qualifications and frameworks

City & Guilds has identified the connections to other qualifications. This mapping is provided as guidance and suggests areas of overlap and commonality between the qualifications. It does not imply that candidates completing units in one qualification are automatically covering all of the content of the qualifications listed in the mapping.

Centres are responsible for checking the different requirements of all qualifications they are delivering and ensuring that candidates meet requirements of all units/qualifications. For example, units within a QCF qualification may be similar in content to units in the NQF qualification which the candidate may have already undertaken and this may present opportunities for APL/RPL.

This qualification has connections to the:

- City & Guilds Level 3 Diploma for the Children and Young People's Workforce
- City & Guilds Level 2/3 Diploma for Children's Care, Learning and Development (Northern Ireland and Wales)
