60087857 Level 2 Diploma in Wall and Floor Tiling

Who is this qualification for?

This qualification is for people interested to work in wall and floor tiling in the construction industry. You may have completed previous qualifications in construction trades, or have experience working within the industry as a tiler.

This qualification is suitable for anyone from 16 years old or over.

What does this qualification cover?

This qualification covers a wide range of skills and knowledge required for preparing to work in the construction industry.

The following topics are covered within this qualification:

- health, safety and welfare in construction
- principles of building construction, information and communication
- preparing backgrounds for tiling
- forming sand and cement screeds
- tiling wall surfaces
- tiling floor surfaces.

What could this qualification lead to?

This qualification could lead to a job as a wall and floor tiler. As a tiler, you may gain employment working for a house-building company, a property development company, or work as part of a small business repairing and refurbishing buildings.

Will this qualification lead to further learning?

You could progress onto any of the following qualifications:

- Level 3 Diploma in Wall and Floor Tiling
- Level 3 NVQ Diploma in Occupational Work Supervision (Construction).

Why choose this qualification over other similar qualifications?

This qualification covers all of the skills and knowledge you will need to work as a wall and floor tiler, and will give you a wider range of progression or employment opportunities

However, if you are a newcomer to the construction industry, you may also want to consider the Level 2 Certificate in Construction Operations - General Construction. This qualification covers a wide range of skills and knowledge to prepare learners to work in the construction industry.

Level 2 Construction qualifications are the introductory basic skills and knowledge, which may be general or may be focussed on specific trades. Level 3 Construction qualifications are recognised by the sector as providing more advanced skills and knowledge, which are also required to work in a supervisory role on a construction site

Who supports this qualification?

This qualification is supported by the Federation of Master Builders.

This is intended for use as a Technical Certificate at Level 2
